No. 942 / 6440

Section Miscellaneous

No. 17

Serial No. 1

From

The Secretary to the Government of Mysore.

P. W. Department.

To The Deputy Commissioner

Hassan District.

Sir,

I have the honor to inform you that a project roughly estimated at Rs 92,000 for a pure and sufficient water-supply to the Town of Hassan has been laid before Government. The proposals are to raise the Vadkondagula Tank weir by 6 feet and to impound 160 units of water by utilizing the whole of the available catchment area 4½ square miles after the breaching the upper tanks and thrawing the lands under them out of cultivation; and thence to lead the water by a masonry duct to filter beds and pure water cisterns, from which it will be delivered over the town by pipes, fountains &c.

II. Having regard to the importa

at Nawalapitiya, the State is prepared to charge the Municipality only Rs 40,000 on account of the project, giving the remainder (about £2,000) as a free grant. The State will further allow Rs 40,000 to be charged to the Municipality as a loan at 3½% interest redeemable in 35 years by annual payments of Rs 2,000. I am to enquire whether the Municipality is able to agree to these reasonable terms.

III. On the above project, a sum of Rs 3,60. has been provided for, compensation for keeping up and throwing out of cultivation the lands (about 115 acres) under the upper tanks, and Rs 5,063 for compensation for throwing out of wet cultivation 144 acres of land under the Dadhanda-gala Tank. The compensation in the latter case seems too large. I am to request you will definitely settle the compensation with the owners, and report the amounts of the same to this office at an early date.

I have &c
